Education

Bachelor's Degree in Electrical Engineering.

National Autonomous University of Honduras

React: De cero a experto (Hooks y MERN)

Udemy

Languages

English (intermediate).

Spanish (native).

Profile

Detail-oriented, self-motivated front end developer. I'm a hardworking individual who like to applies his knowledge to solve problems in creative ways. Always searching for self-improving experiences.

Work Experience

As an Electrical Engineer I've work for electrical providers supervising power line installation in residential projects.

Through this experiences I've developed team working and problem solving abilities that I expect to bring to my developing career. That's why I started learning how to code, first using free content online and then through courses.

I'm very passionate about coding and designing web projects, I have brought this eagerness to create and learn to the personal projects I've developed.
